

SARA KHAN

Machine Learning Engineer

sara.khan@example.com | +92 321 9876543 | Islamabad, Pakistan

SUMMARY

Machine learning engineer with 3 years of hands-on experience in computer vision and natural language processing, focused on shipping models to production.

EXPERIENCE

Machine Learning Engineer - Arbisoft, Lahore (Mar 2022 - Present)

- Built CNN image classifiers in TensorFlow reaching 94 percent accuracy on a manufacturing defect detection task.
- Developed an NLP chatbot with spaCy and Rasa handling 5,000 customer queries per day, cutting support ticket volume by 30 percent.
- Wrote SQL ETL pipelines feeding the model training warehouse.
- Collaborated through Git with a team of 6 engineers; reviewed PRs daily.

Junior ML Engineer - Techlogix, Islamabad (Jul 2021 - Feb 2022)

- Trained YOLO object detection models for retail shelf monitoring.
- Automated data labelling workflows, saving 15 hours per week.

EDUCATION

BS Computer Science - LUMS, Lahore, 2021

SKILLS

Python, TensorFlow, Keras, PyTorch, OpenCV, CNN, YOLO, NLP, spaCy, Rasa, SQL, PostgreSQL, Git, Docker, Flask, FastAPI

CERTIFICATIONS

DeepLearning.AI TensorFlow Developer Certificate, 2022
